  - Communication
  - Time Management
  - Adaptability
  - Collaboration
  - Problem-Solving
  - Presenting
  - Problem-Solving
- **Hard skill**
  - MarkUpLangauge
  - JavaScript
  - Python Django

Tools

Figma, GithubDesktop ,Bootstrap

Career Objective

Position : Senior Web Developer

Summary : I wish to be an experienced web developer with a strong expertise in front-end and back-end technologies. Specialized in designing and implementing responsive and scalable web applications.

Objective : Over the next five years, I aim to advance to a senior web developer role where I can lead projects, mentor junior developers, and contribute to the strategic direction of web development initiatives. I aspire to specialize further in full-stack development, emerging technologies and frameworks to create robust and innovative solutions that drive business growth and exceed client expectations.

Projects

Camera Website Landing page :

- Developed a static landing page for a camera selling website using HTML and CSS.
- Ensured the layout effectively highlighted product features and facilitated easy navigation for users.
-Link: https://github.com/Ancient100000/MyProjects

404 Custom error page With javaScript and markupLanguage

-Developed a dynamic and engaging custom 404 error page featuring an animated countdown, showcasing proficiency in HTML, CSS, and JavaScript for user-centric web experiences.
- Has a real-time incrementing counter, demonstrating proficiency in front-end web development and user experience design.
-Link :https://github.com/Ancient100000/MyProjects

PersonalPortFolio

- As a developer, I crafted a portfolio website using HTML, CSS, and JavaScript to showcase my skills and projects effectively.
-The site includes interactive elements and smooth animations to engage visitors, demonstrating my proficiency in creating dynamic web experiences
